34
35 4. **Budget Focus Areas:** Chair Browne discussed the coordination of focus areas between this committee and School
36 Board and asked Chair Dailey if the School Board has made their appointment and set their agenda. Chair Dailey
37 indicated that he favors a Strategic Planning Committee and that committee assignments will be part of the May
38 School Board meeting. He felt it was important that both boards are on the same page with their focus as well. He
39 stated that a clear message came from the citizens this budget season that a return on investment was expected by
40 the taxpayers. Chair Dailey wants to focus more intently on fewer items while planning forward to the months and
41 years ahead. Pam Altner questioned what was on the forefront for the School Board. Chair Dailey indicated student
42 achievement along with Senate Bill 193 (which establishes education freedom savings accounts for children between 5
43 and 20 years of age). A broad discussion of the impacts of this legislation on our school district's finances and
44 education of our students ensued. The funding for this legislation will come from the NH State "adequacy grant funds"
45 paid to the school district by the "Average Daily Membership" of students. This is approximately \$3,600 per pupil and
46 would allow families to receive 90 percent of their child's portion of the adequacy funds in an education savings
47 account to use for alternative school choices and may have a negative impact on public school districts. After much
48 discussion, it was thought it would not affect the 2017/2018 budget year but we would keep apprised of the outcome
49 of the bill.

50 a. **Monthly Reporting of Expenditures:** We reviewed the General Fund Revenue and Expense Reports along with the
51 Food Service Income Report received from the SAU Business Office. Chair Browne reported Lise Tucker indicated to
52 her that the SAU does anticipate another deficit, but smaller than last year and that the reports reflect an
53 unanticipated fund balance of \$ 192,618.78 (25,515.69+ 177,539.61 - 10,436.52). The SAU is still encumbering for
54 professional development and spring repairs and she indicated this number would change. They are hopeful it will

55 fall within 1.5% of the budget for a year end fund balance of \$ 184,179.54. The committee felt this was helpful and
56 wanted to receive these reports on a monthly basis along with the Budget Transfers, Technology Review and Capital
57 Improvement Plan updates. It was requested that the School Board Agenda and content be emailed to the Budget
58 Committee members.

59 b. **Technology Integration:** Chair Browne and Chair Dailey suggested this fall under the auspices the Strategic
60 Planning Committee. James Kofalt questioned if the School Board was providing oversight of the adoption of the
61 technology and suggested that we formulate our questions in order to receive the information we want: 1. What
62 kind of information are you getting? 2. What else do we want from that and what is planned for monitoring? 3. Is
63 there a better way to measure its use? He felt that we need to establish disciplines that effect future budget
64 decisions.

65 c. **Facilities Use:** This would also fall under the Strategic Planning Committee.

66 d. **Strategic Planning Group:** Budget Committee members felt this sub-committee should be formed with both School
67 Board and Budget Committee members and that the two boards need to work cohesively together with clear
68 expectations. A goal should be to drive costs down and value up.

69

70 5. **Other Business:**

75 agreement could be changed, review and discuss unreserved fund balances in addition to reviewing the number of
76 members on the Board and Committee in future meetings.
