48 the "Discretionary Spending" amount increased significantly over the past three budget seasons. He questioned as
49 to why these numbers for computers, software, supplies and paper were so high. Chair Dailey suggested that this
50 may be due to Technology costs being moved out of Capital Reserve to the general budget. Jim is looking to
51 understand the difference and will be speaking with Superintendent Lane. Mr. Kofalt suggested that this format of
52 analysis provides us with trends and allows us project forward taking into consideration future needs of the school
53 and town tax issues. He suggested there be no "status quo" and that the Committee look at all budget numbers
54 that have increased. Mr. Kofalt said the purpose of the analysis is to see what guidance the Budget Committee will
55 give administration for the coming year. He recommended an aggressive goal of \$250K decrease in discretionary
56 spending and discussed a level budget, for every increase there has to be a corresponding decrease, be a starting
